

CURCUMIN

DETOXIFY YOUR BODY

1. Toxins enter your body

- Alcohol
- Soft drinks
- Smog
- UV rays
- Drugs
- Sweeteners

2. Toxins accumulate in your body

When you consume or expose yourself to excess toxins, you put yourself at risk to develop numerous health conditions¹.

3. Toxins are broken down by the liver and made water soluble for release to your kidneys.

Curcumin supports normal liver detoxification activity, and some research suggests Curcumin may also^{2*}:

- Improve cholesterol
- Support heart health
- Reduce inflammation
- Soothe the stomach³

4. Toxins leave your body
