

# the next generation of skincare

Lumière de Vie® is the next generation of skincare, designed to promote the natural healing process of all skin types.

Using the power of the sea and the earth, Lumière de Vie helps provide revitalized radiance, improved clarity and younger-looking skin. With the highest quality natural ingredients and powerful formulas that help rejuvenate, soothe, moisturize and protect, Lumière de Vie acts as first aid for your skin.

Put life and light into your skin with Lumière de Vie.

FOR BEST RESULTS, UTILIZE THE FOLLOWING REGIMEN DAILY.

<b>STEP 1 cleanse</b>	Cleanse with <b>1</b> Lumière de Vie Facial Cleanser by wetting your hands and face and, in circular motions, apply the cleanser to the face. Rinse with water or a wet washcloth. Repeat morning and night.
<b>STEP 2 tone</b>	Toning helps to balance the moisture in the skin, making it less oily. It is also considered a second step in the cleansing process. Apply a small amount of <b>2</b> Lumière de Vie Toner to cleansed skin using a cotton pad. Using your fingertips, gently massage into skin on face and neck, avoiding the eye area. Allow to dry. Repeat morning and night.
<b>STEP 3 detoxify</b>	Apply <b>3</b> Lumière de Vie Volcanic Exfoliating Mask to the face using clean hands, ensuring a thin layer covers the face and avoiding the eye area. Leave the mask on for 10 minutes. Repeat 1 to 2 times per week to detoxify the skin.
<b>STEPS 4-7 treat</b>	In any skincare regimen, the order of products is dependent on the texture of the product — apply the lightest textured products first and end with the heaviest.  Apply treatments using a light patting motion, ensuring the entire face has been covered.  First, use <b>4</b> Lumière de Vie Illuminating Fading Fluid (a.m. or p.m.), as it is light in texture. Next, use <b>5</b> Lumière de Vie Needle-Free Serum (a.m. and p.m.), as it has a slightly heavier texture than the Lumière de Vie Illuminating Fading Fluid. Follow with <b>6</b> Lumière de Vie Serum Concentrate (a.m. and p.m.), as it is heaviest in texture. Complete the treatment with <b>7</b> Lumière de Vie Super Crème (a.m. and p.m.).
<b>STEPS 8-11 moisturize</b>	Apply <b>8</b> Lumière de Vie Intense Rejuvenation Crème to the face, avoiding the eye area. Repeat morning and night. Apply <b>9</b> Lumière de Vie Advanced Firming Neck Crème to the neck and décolletage. Repeat morning and night. Apply <b>10</b> Lumière de Vie Eye Balm to the under-eye area using the included metal-tipped applicator. Using the applicator, lightly dab a small amount of Lumière de Vie Eye Balm underneath the eyes, rotating the applicator while moving from the inside corner of the eye to the outside. The applicator, along with the motion of the application, will help to increase the circulation under the eyes, decreasing the look of puffiness and under-eye circles. Repeat morning and night. Apply <b>11</b> Lumière de Vie Intensive Hand & Body Crème to the hands and body for super-hydrated skin. Repeat morning and night.
