

THE POWER OF

Pycnogenol

Pycnogenol® is a natural plant extract from the bark of the maritime pine tree, which grows exclusively along the coast of southwest France in Les Landes de Gascogne. According to the studies, Pycnogenol is highly bioavailable to the body, making it easily absorbed. In studies, patients experienced benefits in many ways, such as...

Enhanced microcirculation and **blood flow**¹

Lowered systolic **blood pressure** over 8 weeks²

Reduced premenstrual **abdominal pain**²

Protection against **oxidative stress** in several cell systems²

Enhanced cellular **antioxidant** protection¹

Decreased melasma **on skin**⁴

Lowered blood sugar levels and **improved endothelial function**³
