- Increases energy.
- Supports the oxidation of fat for energy.
- Promotes thermogenesis, lipolysis and weight loss.
- May reduce the potential for the body to store fat.
- May help curb appetite.
- Contains key ingredients that support normal metabolic functions.

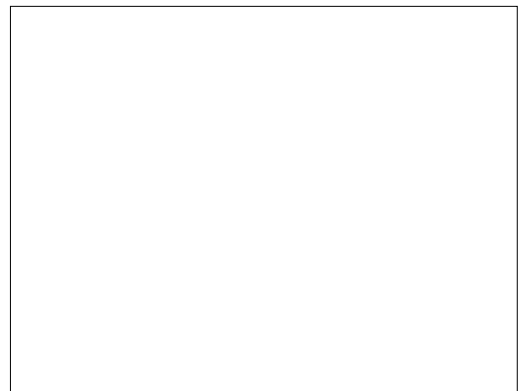

WHAT MAKES TLS THERMOCHROME V6 UNIQUE?

The new **TLS® Thermochrome V6** is a unique and revamped formulation that combines the proven sciences of lipolysis and thermogenics to support increased energy levels and weight loss. TLS Thermochrome V6 uses high quality ingredients, including caffeine from green tea and theobromine, both gentle on the body without compromising on caffeine's benefits for energy, thermogenesis and metabolic drive. The unique thermogenic blend of TLS Thermochrome V6 can help the body burn through fat and maintain healthy blood sugar levels.*

TLS Thermochrome V6 is formulated with **Capsimax™**, a clinically supported ingredient with the same active and concentrated capsaicinoids found in red chili peppers; capsaicinoids help support longevity and healthy metabolism. TLS Thermochrome V6 uses specialized beadlet technology providing all the benefits of concentrated, highly active capsaicinoids in a controlled-release coating without the discomfort of unprotected chili peppers.
