

gotrim 30-Day Jump-Start Kit

Ready, Set, Go!

Creating your own success has never been easier.

OVERVIEW

Our 30-Day Jump-Start Kit is designed to start your weight loss journey the right way. We know you want fast results without compromising flavor or satiety, and that is why this Jump-Start Kit is just the place to start. The two phases will get you looking and feeling great in no time. Phase 1 is a cleanse — a fresh start that not only gently cleanses your digestive tract but helps curb your cravings and prepares you for the second phase, which is the fat-burning phase. During the second phase, you will modify your food plan and add in exercise.* This is where you really will see a loss of fat and inches.

PHASE 1 – DETOX CLEANSE

DAYS 1-7

Kick off your weight loss journey with an invigorating cleanse! Phase 1 will curb cravings for sweet, fatty and salty foods while supporting your weight loss efforts. Bursting with fruits and vegetables, this detox is the first step to a brand new you.

PHASE 2 — FAT BURNING

DAYS 8-30

Accelerate your weight loss efforts during Phase 2, which is specially created to target stubborn fat. During these weeks, you will reach the maximum phase of fat loss. You will shed those extra pounds of fat and ultimately feel better, both physically and emotionally.

^{*}Consult your healthcare provider before starting any weight management or exercise program.

Results not typical. Individuals following the GoTrim[®] Lifestyle System as part of a healthy diet and exercise program can expect to lose 1–2 pounds per week.

Jump-Start Strategies

- **Get plenty of sleep.** Getting adequate sleep helps your body function optimally and burn more fat.
- No skipping meals. Do not go more than four hours without eating while awake. As our plan outlines, consistently eating keeps your blood sugar levels even throughout the day. This assists with having more energy and being able to burn more fat!
- No alcohol. We know this may be a challenge for some, but alcohol negatively impacts your weight loss and health goals by turning to sugar and storing as fat.
- Drink water. There are so many health benefits to drinking at least 64 oz. a day, including weight loss.
- Use spices and fresh herbs to enhance your meals. Eating healthy should not mean bland. You can use fresh garlic, ginger, basil, cilantro and parsley. And a dash of salt, pepper, hot peppers, cayenne, turmeric, vinegar, mustard, Bragg[®] Liquid Aminos or low-sodium soy sauce goes a long way.
- No grains, starches or dairy. You'll be getting your carbohydrates from fruits and vegetables!
- No sugar or artificial sweeteners. Once you complete your cleanse week, you will notice your taste buds naturally adjust and foods taste sweeter, so you won't even need extra!
- Choose raw, lightly steamed or grilled vegetables. While there are studies that show raw vegetables may be better at times, we just want you to get your vegetables in!

TIPS FOR TAKING "BEFORE AND AFTER" PHOTOS

Pictures speak louder than words. Before getting started on your 30-Day Jump-Start, be sure to take "before" photos. After just 30 days, you will see the physical rewards of your hard work.

- Photos should be full-body shots (from head to toe) consisting of one shot each from the front, side and back. Posing for a "before" picture in a bathing suit isn't the thing most people like to do, but seeing how far you've come and the change to your shape is worth it! If you prefer to do it privately, just set your camera or cell phone camera to a timer and take the photos by yourself. Just be sure to take them!
- Photographic area should be well lit; dim lighting prevents detailed viewing.
- Along with your photo, we would love to hear about your journey. Be sure to tell us your story, along with how many inches and the weight you've lost!
